Exotic Love Bath

This is the treatment to re-connect those who need a little love put back in their life... or for those who are already romantic and want more! Bathing... one of the oldest spa rituals in the world and one that is still most beneficial to our mental and physical health today. Not to mention the wonderful skin softening properties that a good bath can offer us.

A mini scalp massage is performed whilst your feet soak in sea salt and rose petal foot bath, to instantly ease your mind & soul. Then we will leave you both to soak in the lovely bath/spa that is infused with special bath crystals and oil and candles. After a 15-20 minute soak we will then guide you to the massage table and a hydration massage will be performed on your body with long sweeping upward strokes massaging the lotion into the skin, once you have turned over the hydration will be repeated starting at the feet working all the way up your body. Then a mini facial will be performed, followed by a special scalp massage and a relaxing herbal tea, ahhh (nb. Only can be done if there is a spa or bath for two on at your retreat!)

2 hrs - 220/pp
